

Kaylany Merced

Phone: (803)-420-7570

Email: KAYLANYRMERCED@PROTON.ME

Github: <https://github.com/KMerced>

Skills

- Foreign language(s): Spanish
- Microsoft Office: Word, Powerpoint, and Excel
- Basic Linux
- Docker
- HTML
- React

Experience

Home Lab | Personal Project | December 2025-Present:

- Built and currently maintains a self-hosted Linux server environment on Linux Mint using Docker and Portainer
- Using Portainer, deploys and maintains containerized services such as:
 - Jellyfin: Media server for personal media streaming
 - Navidrome: Music server for personal music streaming
 - Immich: Photo server for photo/video backup and management
 - Copyparty: File server for file management
- Maintains container health and operations, including initial deployment, network configuration, storage mounts, updates, and troubleshooting
- Created secure remote access to all services without exposing said services to the public internet using Tailscale

Education

Expected graduation date: May 2028

University of South Carolina, Columbia SC 29208 – *Bachelor of Science*

- Prominent coursework: Algorithmic Design I, Algorithmic Design II, UNIX/Linux Fundamentals, Introduction to Databases, Web Applications
